Fall 2010 Fact Book John Jay College of Criminal Justice

The Office of Institutional Research is pleased to present the Fall 2010 John Jay College of Criminal Justice Fact Book.

The tables are produced from a variety of data sources. The tables in the section, **College-wide Trends**, are part of the college's year-end Performance Management Report. **Fall Enrollment Trends** is provided by the Office of Enrollment Management.

The sections, **Trends in Student Characteristics**, **Trends in Degrees Awarded**, **Trends in Retention and Graduation**, utilize the CUNY Institutional Research Database of the Office of Institutional Research and Assessment, Office of the Vice Chancellor for Budget, Finance, and Information Services, The City University of New York.

Information collected through student surveys is the source for the sections, **Trends in Student Satisfaction** and **Alumni**. The student satisfaction trends come from CUNY-wide surveys administered to 1,000 randomly selected undergraduate students in the spring of 2004, 2006, 2008, and 2010. The information on alumni comes from local surveys administered by the Office of Institutional Research 4-6 months after graduation and two years after graduation. Data are self-reported, and this year's Alumni section provides information on the classes of 2009 and 2007. The section, **Faculty Profile**, draws from the HCM database in CUNYFirst maintained by the Office of Human Resources.

Every attempt has been made to ensure that the data are accurate.

TRENDS IN RETENTION AND GRADUATION

TRENDS IN RETENTION AND GRADUATION

The tables in this section come from the database maintained by the Office of Institutional Research and Assessment, Office of the Vice Chancellor for Budget, Finance, and Information Services, The City University of New York. The tables utilize standard definitions in determining retention and graduation rates for first-time, full-time degree-seeking students.

First-time, full-time students are students who have not previously matriculated at a college, who are not entering with transfer credits, and who are enrolled in at least 12 hours of course work the first term of attendance at John Jay College. By this definition, transfer students (including in-service students) are not included in the cohort. A degree-seeking student is one whose stated degree objective for that first term of attendance is either an associate or baccalaureate degree.

For the cohorts included in these tables, retention rates are determined by the percentage who did not earn a degree and are still enrolled at John Jay (the institution rate) or in any CUNY degree program (the system rate) the subsequent fall term(s). Graduation rates are determined by the percentage earning a degree anytime after entry and prior to the start of the subsequent fall term(s). For example, if a student has completed a degree prior to the sixth year, he/she is counted as graduated in the sixth year; if a student were enrolled in the fall term of the sixth year and had not graduated previously or did not graduate by the fall term of the sixth year, he/she is counted as still enrolled. The categories of 'still enrolled' and 'awarded degree' are mutually exclusive.

The retention and graduation rates include first-time, full-time degree-seeking students who began their studies at John Jay and remained at John Jay or transferred from John Jay College to another CUNY unit and are still enrolled or have graduated. Students who transfer within the system continue to be tracked by the University.

The tables are organized by degree pursued upon entry to the college. The first table presents information for baccalaureate degree students followed by information for associate degree students.

TRENDS IN STUDENT SATISFACTION

TRENDS IN STUDENT SATISFACTION

The table in this section presents data collected from four administrations of the CUNY Student Experience Survey. The survey is administered by the CUNY Office of Institutional Research and Assessment (OIRA) to 1,000 undergraduate students randomly selected from each of the 17 CUNY colleges. The survey asks students to evaluate their experiences with courses, professors, college services, and other aspects of college life. Additionally, students are also asked to provide key demographic information and household information.

The table is structured to allow for comparisons across the 2004, 2006, 2008, and 2010 administrations of the survey. Not every survey item is included here nor is every item asked each year.

John Jay students are surveyed at the time of graduation and then again two years later. Students are asked to reflect on their experiences at John Jay and to report back employment information and whether they have continued their education beyond John Jay.

The table in this section provides information on post-graduate outcomes for bachelor degree recipients: what do our students do once they have graduated from John Jay. The information presents post-graduate outcomes 4-6 months after graduating for the class of 2009 and post-graduate outcomes 2 years after graduating for the class of 2007.

Notes:

¹ 'Faculty' includes teaching faculty, chairs, counselors, and librarians. Also included are faculty on leave during the term (e.g., fellowship, scholar incentive, special purpose leave). The following are excluded: faculty reassigned to assume full-time administrative duties, faculty on permanent disability, and college laboratory technicians. Data for 2006-2008 come from CUPS; data for 2009 and 2010 come from CUNYFirst.

² Beginning in fall 2010, the rank of distinguished professor is reported separately from that of professor. In previous years, the rank of professor includes that of distinguished professor.

³ Although CUNY designates Italian American as a protected category, it is not included in the calculation of minority faculty here.

⁴ Lecturers with a CCE are counted as having tenure. Distinguished Professors on leave from a tenured line are counted as having tenure.
