SPRING 2009 COLLOQUIUM SERIES

Subways to Security

Harvey Molotch

Professor of Sociology and Metropolitan Studies
New York University

Thursday, March 19, 2009

3:00pm

Sociology Department, Suite 520.14T

With NYU PhD student **Noah McClain**, **Professor Harvey Molotch** has been studying New York's subway system, observing and interviewing the workers as well as the bosses. He will report on how workers engage in acts of "security" as they ward off potential dangers, both of the routine and not-so-routine sort. It leads us to think about security in general: like at the airport as well as other "theaters" farther afield.
